## Directors' report (continued)

### Review and results of operations (continued)

#### Results

The performance of the Fund, as represented by the results of its operations, was as follows:

	Half-year ended	
	31 December 2017	31 December 2016
Operating profit/(loss) (\$'000)	2,395	2,119

#### Distributions

Distributions paid and payable (\$'000)	-	-
Distribution (dollars per unit)	-	-

#### Net Asset Value per unit

NAV per unit (quoted ex-distribution) are shown as follows:

	2017	2016
	\$	\$
At 31 December	2.79	2.36

#### Significant changes in state of affairs

In the opinion of the directors, there were no significant changes in the state of affairs of the Fund that occurred during the half-year.

#### Likely developments and expected results of operations

The results of the Fund's operations will be affected by a number of factors, including the performance of investment markets in which the Fund invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Further information on likely developments in the operations of the Fund and the expected results of those operations have not been included in this report because the Responsible Entity believes it would be likely to result in unreasonable prejudice to the Fund.

#### Rounding of amounts to the nearest thousand dollars

The Fund is an entity of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the Directors' report. Amounts in the Directors' report have been rounded to the nearest thousand dollars in accordance with that ASIC Corporations Instrument, unless otherwise indicated.

## 1 Basis of preparation of interim report

This interim report covers the K2 Global Equities Fund (the "Fund") as an individual entity which is a registered managed investment scheme under the *Corporations Act 2001* and was admitted to trading status on the ASX under the AQUA Rules on 20 July 2015 (ASX code: KII). The Fund was registered with ASIC as a registered managed investment scheme on 5 May 2015 and began operations on 15 July 2015. The Fund will terminate on 14 July 2095 unless terminated earlier in accordance with the provisions of the Fund's Constitution.

The Responsible Entity of the Fund is K2 Asset Management Ltd (the "Responsible Entity"). The Responsible Entity's registered office is Level 32, 101 Collins Street, Melbourne, VIC 3000. The financial statements are presented in Australian currency.

These general purpose financial statements for the half-year ended 31 December 2017 have been prepared in accordance with the *Corporations Act 2001* and Australian Accounting Standard AASB 134 *Interim Financial Reporting*.

This interim report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2017, any public announcements made in respect of K2 Global Equities Fund during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001* and the current Product Disclosure Statement.

This interim report was authorised for issue by the directors on 14 February 2018.

### *Reclassification of units from financial liability to equity*

On 5 May 2016, a new tax regime applying to Managed Investment Trusts ("MITs") was established under the Tax Laws Amendment (New Tax System for Managed Investment Trusts) Act 2016. The Attribution Managed Investment Trust ("AMIT") regime allows MITs that meet certain requirements to make an irrevocable choice to be an AMIT. In order to allow the Fund to elect into the AMIT regime, the Fund's constitution was amended and the other conditions to adopt the AMIT regime were met effective 28 June 2017. Under the AMIT regime income is attributed to unitholders on a fair and reasonable basis, as determined by the Responsible Entity. Consequently the units in the Fund have been reclassified from a financial liability to equity on 28 June 2017. For further information, please refer to note 5.

Units are redeemable at the unitholders' option and the units can be put back to the Fund at any time for cash based on the redemption price, which is equal to a proportionate share of the Fund's net asset value attributable to the unitholders less redemption costs. The units are carried at the redemption amount that is payable at balance sheet date if the holder exercises the right to put the units back to the Fund. This amount represents the expected cash flows on redemption of these units.

Units are classified as equity when they satisfy the following criteria under AASB 132 *Financial instruments: Presentation*:

- the puttable financial instrument entitles the holder to a pro-rata share of net assets in the event of the Fund's liquidation;
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical;
- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavorable conditions to the Fund, and it is not a contract settled in the Fund's own equity instruments; and
- the total expected cash flows attributable to the puttable financial instrument over the life are based substantially on the profit or loss, the change in the recognised net assets or the change in the fair value of the recognised and unrecognised net assets of the entity over the life the investments (excluding any effects of the instrument).

Effective from 28 June 2017, the Fund's units have been reclassified from financial liability to equity having satisfied all the above criteria.

Other than noted above, the accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period. There have been no significant changes in the risk management policies and processes of the Fund since previous financial year end.

## 2 Fair value measurement

The Fund measures and recognises the following assets and liabilities at fair value on a recurring basis:

- Financial assets / liabilities at fair value through profit or loss (see note 3 and 4)
- Financial assets / liabilities held for trading (see note 3 and 4)
- Derivative financial instruments

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 requires disclosure of fair value measurements by level of the following fair value hierarchy:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

### (i) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

The Fund values its investments in accordance with the accounting policies set out in note 2 to the annual report. For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

The quoted market price used for financial assets and financial liabilities is the last traded price. When the Fund holds derivatives with offsetting market risks, it uses last traded prices as a basis for establishing fair values for the offsetting risk positions and applies this last traded price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

### (ii) Fair value in an inactive or unquoted market (level 2 and level 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the reporting date. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Fund would receive or pay to terminate the contract at the reporting date taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date. The fair value of an option contract is determined by applying the Black Scholes option valuation model.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

## 2 Fair value measurement (continued)

### Recognised fair value measurements

The following table presents the Fund's assets and liabilities measured and recognised at fair value as at 31 December 2017 and 30 June 2017.

As at 31 December 2017	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000

Financial liabilities designated at fair value through profit or loss:

Equity securities - short	1,211	-	-	1,211
<b>Total</b>	<b>1,211</b>	<b>734</b>	<b>-</b>	<b>1,945</b>

The Fund's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

#### (i) Transfers between levels

There were no transfers between levels in the fair value hierarchy for the half year ended 31 December 2017 and year ended 30 June 2017. There were also no changes made to any of the valuation techniques applied as of 30 June 2017.

Transfers between levels of the fair value hierarchy are deemed to have occurred at the end of the reporting period.

#### (ii) Fair value measurements using significant unobservable inputs (level 3)

The Fund did not hold any financial instruments with fair value measurements using significant unobservable inputs during the half-year ended 31 December 2017 or year ended 30 June 2017.

## 2 Fair value measurement (continued)

### Recognised fair value measurements (continued)

(ii) Fair value measurements using significant unobservable inputs (level 3) (continued)

(iii) Valuation processes

Portfolio reviews are undertaken regularly by management to identify securities that potentially may not be actively traded or have stale security pricing. This process identifies securities which possibly could be regarded as being level 3 securities.

Further analysis, should it be required, is undertaken to determine the accounting significance of the identification. For certain security types, in selecting the most appropriate valuation model, management performs back testing and considers actual market transactions. Changes in allocation to or from level 3 are analysed at the end of each reporting period.

(iv) Fair values of other financial instruments

The Fund did not hold any financial instruments which were not measured at fair value in the statement of financial position. Due to their short term nature, the carrying amounts of receivables and payables are assumed to approximate their fair value.

## 3 Financial assets held at fair value through profit or loss

<b>Total financial liabilities held at fair value through profit or loss</b>	<b>563</b>	<b>1,945</b>

#### 5 Net assets attributable to unitholders

Under AASB 132 *Financial instruments: Presentation*, puttable financial instruments meet the definition of a financial liability to be classified as equity where certain strict criteria are met. The Fund shall classify a financial instrument as an equity instrument from the date when the instrument has all the features and meets the conditions.

Prior to 28 June 2017 the fund classified its net assets attributable to unitholders as liabilities in accordance with AASB 132. On 28 June 2017, the Fund elected into the AMIT regime. Amendments to the Fund's Constitution became effective on the same date which require attribution of income to unitholders on fair and reasonable basis. Therefore the net assets attributable to unitholders of the Fund meet the criteria for classification as equity as set out under AASB 132 and are classified as such from 28 June 2017 onwards.

As a result of the reclassification of net assets attributable to unitholders from liabilities to equity, the Fund's distributions are no longer classified as finance cost in the statement of comprehensive income, but rather as dividends paid in the statement of changes in equity.

Movements in the number of units and net assets attributable to unitholders during the half-year were as follows:

	Half-year ended			
	31 December 2017 No. '000	31 December 2016 No. '000	31 December 2017 \$'000	31 December 2016 \$'000

Closing balance*	<u>7,315</u>	<u>14,984</u>	<u>20,435</u>	<u>35,390</u>

\*Net assets attributable to unitholders are classified as equity at 31 December 2017 and a liability at 31 December 2016. For further information, please refer to note 1.

## 5 Net assets attributable to unitholders (continued)

As stipulated within the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right to the underlying assets of the Fund. There are no separate classes of units and each unit has the same rights attaching to it as all other units of the Fund.

There have been no significant changes to the related parties transactions disclosed in the annual report for the half-year ended 31 December 2017.

## 8 Events occurring after the reporting period

No significant events have occurred since the end of the reporting period and up to the date of this report which would impact on the financial position of the Fund disclosed in the statement of financial position as at 31 December 2017 or on the results and cash flows of the Fund for the half-year ended on that date.

## 9 Contingent assets and liabilities and commitments

There are no outstanding contingent assets, liabilities or commitments as at 31 December 2017 and 30 June 2017.

## Directors' declaration

In the opinion of the directors of the Responsible Entity:

- (a) The financial statements and notes set out on pages 6 to 17 are in accordance with the *Corporations Act 2001*, including:
  - (i) complying with Australian Accounting Standards (including the Australian Accounting Interpretations), the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
  - (ii) giving a true and fair view of the Fund's financial position as at 31 December 2017 and of its performance for the half-year ended on that date; and
- (b) the financial statements also comply with International Financial Reporting Standards as disclosed in note 2; and
- (c) there are reasonable grounds to believe that the Fund will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the directors of K2 Asset Management Ltd.

# Independent Auditor's Review Report

To the unitholders of K2 Global Equities Fund

## Conclusion

We have reviewed the accompanying **Interim Financial Report** of K2 Global Equities Fund (the Scheme).

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Interim Financial Report of K2 Global Equities Fund is not in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the Scheme's financial position as at 31 December 2017 and of its performance for the half-year ended on that date; and
- complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

The **Interim Financial Report** comprises:

- Statement of financial position as at 31 December 2017;
- Statement of comprehensive income, Statement of changes in equity and Statement of cash flows for the half-year ended on that date;
- Notes comprising a summary of significant accounting policies and other explanatory information; and
- The Directors' Declaration.

## Emphasis of matter – Restatement of comparative balances

We draw attention to Note 1 to the Interim Financial Report, which describes the reclassification of the Scheme's units from financial liability to equity effective 28 June 2017 after opting into the AMIT Regime. Equity transactions, including distributions have been reclassified and disclosed as comparatives in this Interim Financial Report. Our review report is not modified in respect of this matter.

## Responsibilities of the Directors for the Interim Financial Report

The Directors of K2 Asset Management Limited (the Responsible Entity) are responsible for:

- the preparation of the Interim Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*; and
- for such internal control as the Directors determine is necessary to enable the preparation of the Interim Financial Report that is free from material misstatement, whether due to fraud or error.

## Auditor's responsibility for the review of the Interim Financial Report

Our responsibility is to express a conclusion on the Interim Financial Report based on our review. We conducted our review in accordance with *Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the Interim Financial Report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Scheme's financial position as at 31 December 2017 and its performance for the half-year ended on that date; and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*. As auditor of K2 Global Equities Fund, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of an Interim Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
